

LES CHANTIERS DE CRÉATION

by Les Productions DansEncorps inc.

Press release for immediate release

October 4th, 2021, Moncton, New-Brunswick - A choreography mentorship that continues to evolve. Les Productions DansEncorps Inc. are announcing another edition of Création Danse under a new name and the look that goes with it.

Choreographies under construction, artistic creativity at work, artists in movement; the creative workshop called *Les Chantiers de création* is launched!

Les Productions DansEncorps Inc. invites dancers and choreographers from the region to participate in the program and experience the stages of a creative process during this fall season. Artists can be pre-professional, emerging or professional; the program offers coaching according to the artist's needs. From choreography mentorship to stage production, including an audition process, the goal is to provide a platform for creativity to take shape. *Les Chantiers de création* can be used to learn more about the art of creating, to choreograph an idea you've dreamed of or even to develop a work in progress.
